The Remembrance Film Forum provides numerous different perspectives on the Holocaust. Each of the four weekends has a central theme showcasing a total of twelve (12) shorts & feature films from around the world with talents such as Dustin Hoffman & Joan Allen. Most films are being screened in the Big Bend for the first time:

- Investigate a mystery on Opening Night about priceless artworks lost and found.
- View epic stories of heroes who risked their lives to save others.
- Learn new and surprising facts about famous characters you thought you knew.
- Take a journey of reflection regarding the Nazi genocide in light of today's genocide in Darfur and other parts of the globe.
- Laugh & Smile & Cry at children's curiosity about and conclusions on this chapter in our history.
- Meet survivors that demonstrate & celebrate man's ability to triumph over all.
- Gain insights from authorities who will share their expertise during Q & A.
- Enjoy a Special Reception on Closing Night at the FSU Film School. Then after the films take part in a challenging discussion on today's social threats and how our community can overcome them with lessons learned from the past.
